

Ten Reasons to Choose TURFSCAPE™

credentials

Along with being **ISO 9001 Quality Certified**, Act Global is the first company in the world to be a FIFA Preferred Producer for Football Turf, Synthetic Turf Council Certified Manufacturer, World Rugby Preferred Turf Producer, and an FIH (field hockey) Preferred Supplier.

testing

Reputable sellers should verify all the properties of your turf to guarantee you're not buying an inferior product at an inflated price. **All of our Turfscape products are third-party tested and proven**, including face weight, denier, pill flammability, permeability and tuft bind.

marketing assistance

Our experienced team of marketing professionals will help propagate your business by providing marketing insight, co-branded literature, samples, sales support, and most importantly, **lead generation**.

yarn extrusion

We are currently manufacturing and distributing Turfscape at our plant located in Calhoun, Georgia, with distribution also available out of Anaheim, California. Our **own exclusive yarn extrusion line** makes our production capabilities virtually endless.

professional quality

Act Global currently has over 1600 installations in over 80 countries. With our recent acquisition of the UBU brand, we now have multiple installations for **13 NFL teams and over 30 NCAA teams**. Installing Turfscape is installing products of professional quality.

environmentally friendly

Every square foot of natural grass replaced with synthetic grass **saves 55 gallons of water per year**. Turfscape is also non-toxic and tested against lead, mercury, zinc and other hazardous heavy materials.

consultations

Our **Director of Quality and Safety** is available for each project to train its users on installation and the small amount of maintenance necessary for Turfscape. With over 25 years of experience, our DQS is an indispensable resource to have on hand.

minimal maintenance

Turfscape looks and feels like natural grass year-round. **No mowing, watering, seeding, weeding or fertilizing will ever be necessary**.

dealer network

You will be getting **exclusive and competitive price breaks** as a part of our elite network of certified partners.

UV protection

Our products have been installed in some of the hottest climates with the highest UV levels. The fibers last longer and still retain tensile strength while also retaining color properties. Turfscape is **developed with advanced UV protection** to withstand tough environmental conditions.
